

## RGH uncatalogued material

This list has been compiled using lists known to include inaccuracies so should only be used as a guide and not a definitive indication of what is held and where. It only contains locations and does not include furniture or fittings. The following is not intended to replace the lists held for each sub-fonds level and the appropriate list should be checked as this may include extra information.

No original documents have been looked at or checked when compiling this information. Obvious spelling mistakes and inaccuracies have been changed, but in general original spellings have been retained which could mean there are errors. Please be aware that the spellings in the original documents have not been changed. Some appear to have been added phonetically and others have used a number 1 instead of the letter i.

Most of RGH6 has been catalogued so this has not been included. The contents of the uncatalogued bundles taken from the RGH5 list have been added. RGH9 and RGH10 have been catalogued.

Where [possibly] has been added this is my interpretation of where the address is as only a street or building name was given.

Please contact staff for more information and guidance about this collection.
